Crossbill Guides - Upcoming guides and plans for future guidebooks

Version March 2010

The Crossbill Guides Foundation produces in-depth, 'educational' nature travel guidebooks of areas in Europe. Our potential work field comprises the West Palearctic, which is Europe up to the Ural mountains, Turkey, Africa north of the Sahara and the Atlantic Islands of the Azores and Canaries.

Within this region, we are currently working on the following guidebooks:

Loire Region, Brenne and Sologne - France	scheduled release	December 2010
Iceland	scheduled release	March 2011
Kempen en Maasland - Belgium (in Dutch)	scheduled release	September 2011
The Pyrenees and steppes of Huesca - Spain	scheduled release	December 2011

Other guidebooks in planning phase

The Rhodope Mountains - Bulgaria
Extremadura - Spain (second edition)

The work on the following titles has been postponed

North-east Greece - from Kerkini to Evros - Greece
Danube delta and Dobrudja - Romania
Vanoise and Gran Paradiso - Spain / Italy

New ideas and opportunities may arise at any time. Therefore, this 'agenda' is flexible and may change in the future. Updated lists of future guidebooks will be provided regularly.
